DETAILED ACTION

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

Knutson et al (US Patent 6,788,710) teach a VSB transmission system comprising a supplemental data processor that includes a supplemental data, encoding, inserting an auxiliary packet, inserting a null packet, and inserting an MPEG header and the multiplexer that multiplexes the supplemental data and the MPEG data. Kumar (US 5,966,401) teaches a data randomizer, a Reed-Solomon encoder, and an interleaver. Combes et al (US 6,704,366) teach a RS encoder, an interleaver, and a convolutional encoder in the transmitting section. The prior art of record fails to teach a data decoding part processing the data processed in said supplemental data symbol processor including symbol-byte converting, data de-interleaving, eliminating said Reed-Solomon parity added in the data encoding part before the VSB transmitter processing.

Conclusion

This application is in condition for allowance except for the following formal matters:

Drawings

The drawings are objected to under 37 CFR 1.83(a) because they fail to correspond to the specification. A new set of drawings is required since figure 4

Art Unit: 2631

according to the specification is missing and figure 4 according to the drawings corresponds to the description of figure 5 according to the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 1 is objected to because of the following informalities:

As to claim 1, "Reed-Solomon" should replace the word "Read-Solomon".

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
